Good idea, Jenny. My comments/questions all are captured relative to points made on slide 12, 13, and 14. We could walk through those. Thanks.

Sounds good, Christine. If it's relatively easy for you, can you pull together some of the questions/general issues to discuss? We could use the next Managers' meeting on 5/21 potentially to talk through the ag presentation, and if you and others have questions ahead of time, the tech team might also be able to prepare so we can move through issues more quickly (or we'll know we have to spend more time preparing.)

That would also give us the week of May 26 to work through any last issues.

Alan and team, thank you for pulling together the ag presentation. I made a few changes in the order of the slides and then I had a number of comments/questions. What I would like to do before June 2 is to have a meeting with a few of you and walk through the slides and talk through potential questions we may get from the State so that I as well as all of us are well prepared for the meeting.

Thanks.
